Re: Letter of Endorsement for Turtle Survival Alliance Canada (TSA Canada)

“We at the Ontario Turtle Conservation Centre would like to congratulate Turtle Survival Alliance (TSA) Canada on its recent creation. TSA Canada works in collaboration with the US-based conservation organization Turtle Survival Alliance, while maintaining its own independence and governance through its Canadian Board of Directors. TSA has been a driving force in turtle conservation for many years. Currently, TSA Canada's prime focus is supporting TSA's overseas conservation programs to protect critically endangered turtles particularly in Southern Asia, Central America and Africa. Projects such as protection of the Radiated Tortoises in Madagascar, and the Central American River Turtles in Belize, can continue to grow as a result. Also, support for the Turtle Survival Centre in South Carolina can be increased.

We wish both TSA and TSA Canada ongoing success in their important conservation work.”

- Dr. Sue Carstairs, Executive & Medical Director
